Mission Statement

The Mission of the Children's Aid Society of Algoma is to protect the children of Algoma and promote their well-being in a manner that reflects community standards and the spirit of related legislation while making the most efficient use of community and Society Resources.

Youth In Care

The Children's Aid Society of Algoma is able to provide services to youth in our care, primarily Crown Wards, up to the age of twenty-one if they are pursuing post-secondary education. The main focus for our Children's Services staff, who work directly with these children and youth, is to ensure they obtain an education. Our success rate is encouraging, as many of our youths now stay in school full time, successfully complete high school and go on to post-secondary education at college or university.

Board Commitment

Our Board of Directors believes that no young person in our care should be denied the training or education needed to assist them in becoming productive, independent adults. The number of CAS youths pursuing a post-secondary education has continued to increase each year. We were able to start providing grants in 2001, and to date have issued over 100 grants to youths to help them be successful in their post-secondary educational goals, and this has helped prepare them to become successful adults.

Many youths in care, supported by the Youth-In-Care Education Assistance Fund, have been able to successfully complete their post secondary studies and are working in a variety of fields throughout our community and our province. They have become nurses, early childhood educators, teachers, equipment operators, chefs, and social workers to name a few.

How You Can Help

We would like you to consider making a donation to our Youth-In-Care Education Assistance Fund. It is with the support of many individuals and organizations in our communities that we are able to issue these grants to our youths. We can't do it alone.

Donations to the Youth-In-Care Education Assistance Fund are critical to the ongoing success of these young people in their post secondary pursuits.

Donations for the Youth-In-Care Education Assistance Fund can be made to the:

**Children's Aid Society of Algoma
191 Northern Avenue East
Sault Ste. Marie Ontario P6B 4H8**

A tax receipt will be issued for any donations made as we are a registered charitable organization.

By investing in the education of these young people, these donations can help them to become self-sufficient, productive and proud members of our community. Any assistance that you can provide towards this goal would be greatly appreciated.

Please feel free to contact the Children's Aid Society of Algoma, if you have any questions, at 705 949 0162, ext 214.
